About of the society

The convener of the meeting Mr. B. C. Sarkar with a great interest, subject pollution free for is the principal theme either social or environmental we do feel very need everywhere of our country. Society is a picture of total some behaviors of individual to individual of present atmosphere a dynamic process of roles of souls interdependent. Thus, social abuses like physical wants, ignorance, diseases, squalor, idleness must be removed from our society . The Govt. has been implementing of getropha cultivation or other devices for wide spread to remove the causes of pollutions either air water, soil or the abuses of our society that the biodiesel using of machines in various works, bio fertilizers on crops field must be widely used all over the country creating for well being to the mass people mainly in health hygienic purposes , even the circulation of the Indian Govt. with the activities of the all Assam Science Society would assist in this field . Thus, the local auspicious people feel a strong need of a developed working community organization on BIODIVERSITY CONSERVATION , MAN MAKING & SOCIETY MAKING for i.e. well being , unemployment problem solving, help to the disable persons, mental health, social abuses are the main barriers from developing of our country, side by side education ,training,business, games and sports and recreational activities are also acceptable with earning of money by plantation, scientific ways of agro development to the farmers ; neighbors' quarrel or Domestic Violence Protection Act 2005, for social peaceful living lives. Education, Environmental Training, Biodiversity Ecological, Cultural & Community development, scholarship to the learners etc. are the main activities to collaborate hand to hands for global brother hoods that S.C ,S.T, O.B.C. Minority members of the Biodiversity Welfare Society (NEA) India Assam Bijni 3 would work from the level best is our motto to form this BIODIVERSITY WELFARE SOCIETY on 11-11 2006 . at Bijni Harichad Chatrabash (Dr.B.R.Ambetkar Hall). Remarkable that our Welfare Society conducting a studies centre on Wild Life and Environmental and a mission of plantation programme, various SOCIAL WELFARE awareness activities with, is known as VISUAL FAMILY PLANTATION mainly of GAMARY, KADAM etc. with applying of bio fertilizer only as well as modifying cultivated soil for more production, furthers employment facilities to the retarded personnel, juveniles as the SOCIO ECONOMIC benefit & SOCIALWELFARE SERVICES would have to do all over our country.

VISUAL FAMILY PLANTATION (GAMARI)
